

Subject: Newsweek Article about ABIM and MOC

March 11, 2015

Gilead Lancaster, MD, FACC (Gilead.Lancaster@bpthosp.org)

Dear BOG,

Interesting [article in Newsweek](#) that I think may explain to the public our fight with the ABIM in the right context (as long as the reader gets past the part about doctors getting dumber).

See you in San Diego!

Gil

Gil,

Thank you for sharing. Excellent article that I believe sums up the frustrations of many of our members as well as other constituents across most medical specialties.

Tim

New York.
